

# OSBORNE REFRIGERATORS

## 900mm Standard Height Range

The Osborne **eCold** range...  
...saving pennies and the planet.

The new *eCold* range from Osborne Refrigerators is designed to be good to your pocket as well as the environment. Low-voltage fans and LED lighting put very little waste heat into the cabinet and improved insulation and efficient compressors maximise cooling performance while using less energy. *eCold* cabinets are also designed to be virtually maintenance-free, with no fluorescent tubes to change, and condensers that never require unblocking.

Osborne Refrigerators Ltd have been established at our West Sussex base for more than 50 years and we are the leading British manufacturer of refrigerators designed for the chilling and storage of wine and cold beverages. As well as our professional range of cabinets, which are specified by leading breweries, drinks manufacturers and leisure companies across the world, we also produce a range of high quality cabinets designed specifically for domestic use.

All our refrigerators use CFC free polystyrene insulation and can be efficiently recycled at the end of their life. They are also available with a choice of refrigerants.

The Osborne range is always evolving, due to our commitment to constantly improve our products and also in response to specific customer requirements. We have built an enviable reputation for the quality and reliability of our refrigerators and we will never stop working to maintain that reputation.

### Details

Standard height (900mm) *eCold* cabinets are available in four different widths, from 493mm to 1350mm. Designed primarily for the storage and display of bottled beverages, these cabinets are also suitable for foodstuffs. Manufactured from rust resistant zinc-coated steel with a hard wearing powder-coat finish or brushed stainless steel, the interior is beaten aluminium or stainless steel. The interior is fan assisted for enhanced chilling and the maintenance-free condenser is fan-cooled for increased efficiency. Insulation is environmentally friendly polystyrene and refrigerant is hydrocarbon R600a. The doors are double glazed, hinged and lockable. Sliding doors are available as an option on 250E models and solid doors are optional on all models. Black and silver painted finish is standard but can be supplied in a variety of RAL and Pantone colours or stainless steel.

\*Bottle capacities are based on 330ml 236mm high beer bottles for ES models and 100mm dia 75cl wine bottles for EW models. Highest wine bottle capacity is reached with bottles standing on base and only 4 shelves used to lay bottles down.

## Cabinet Specifications

### Features

Fan assisted evaporator for rapid cooling  
Fan assisted, maintenance-free condenser for efficient performance  
Automatic defrost and re-evaporation  
Digital temperature controller  
LED lighting gives excellent product display  
Locks  
ES models feature 2 flat shelves per door  
EW models feature 5 flat shelves per door

### Options

Slimline depth - 480mm (180E & 250E only)  
Super-Slimline Depth - 420mm (50E only)  
Solid doors  
Sliding doors (250E only)  
Choice of colours  
Stainless steel exterior and/or interior  
Stainless steel doorframes/solid doors
