

Safety instructions

WARNING - When using electrical appliances, basic safety precautions should always be followed. Failure to comply with these instructions may cause a fire, electrical shocks or other injury to persons or property.

- 1 Children of less than 3 years should be kept away unless continuously supervised.
- 2 Children aged from 3 years and less than 8 years shall only switch on/off the appliance provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children aged from 3 years and less than 8 years shall not plug in, regulate and clean the appliance or perform user maintenance.
- 3 **CAUTION** — Some parts of this product can become very hot and cause burns. Particular attention has to be given where children and vulnerable people are present.
- 4 **DO NOT** site the heater on soft surfaces or where openings may become blocked. Ensure the base is fitted and fully assembled, and the unit is upright on a flat stable surface before operating. This heater is designed for use on Patios and in Beer gardens & smoking areas. The unit has been IP55 Weatherproof approved; however, to prolong the life of the heater it is strongly recommended that the heater is stored in a dry place during heavy rain and when not in use cover the appliance with the cover provided.
- 5 **DO NOT** hide the power cord in long grass or leave close to an operating lawnmower. Arrange the cord away from areas where it may be tripped over.
- 6 **DO NOT** insert or allow objects to touch the heating element and never place anything on the heater safety guard (e.g. towels), as this may damage the heater and could cause an electrical shock or fire. Never use your heater to dry washing. If the heating element has stopped glowing it may still be live, please check that the heat setting indicates the heater is off.
- 7 Always disconnect your appliance from the mains before any cleaning.
- 8 **DO NOT** use the heater in areas where petrol, paint, or other flammable substances are stored.
- 9 Always unplug the heater when not in use. To disconnect from the power supply, grip the plug and pull from the power socket. Never pull by the cord.
- 10 **DO NOT** direct the heater towards curtains, furniture or other flammable objects and ensure that they are at least 1.5 metres from the front and 1 metre from the top back and sides.
- 11 Extreme care should be taken when any heater is used near children and pets.
- 12 In order to avoid overheating, do not cover the heater.

- 13 Never locate the heater where it may fall into a swimming pool or other water container. Never use in a bathroom or shower room. Heater is not located immediately below a socket outlet.
- 14 Do not use this heater in conjunction with a timer device or any other device, which facilitates unattended switch on.
- 15 The electrical cord must be fully unwound before use.
- 16 The front grille is intended to prevent direct access to the heating elements and must be in place when the heater is on.
- 17 This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if, they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- 18 If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

General Information

Before Intended use

This product has been designed for domestic use and can be operated by non expert by following user operations manual. It uses energy efficient infrared Carbon Fibre heating technology to heat indoor and outdoor spaces. The appliance must only be used for the intended purpose according to these instructions. With care and attention the Appliance should provide trouble free heating for at least two years from date of purchase. Please read these instructions. Keep the instructions safe/handy and pass them on to further users. Observe the notes on safety regulations. Never cover appliance when in operation. Flammable objects, clothes, curtains etc, must not come in close contact with the appliance.

Safety tip over feature

Should the heater be accidentally knocked over it will automatically shut down and will not operate until it is restored to its upright position and reset.

Masterlock safety feature

Masterlock enables the user to lock the control panel on the heater to prevent unauthorized use or tampering by children or clientele.

CFL low energy lamp

Titan features a 360 degree light dome with 25W of low energy light equivalent to 150W of incandescent light. This ambient lighting removes the need for high powered halogen floodlights in you patio area and reduces significantly your energy costs.

PIR infrared sensor and Touch Control Panel

The PIR economy feature enables the Titan patio heater to automatically switch on and off depending on activity near the unit. When enabled, the PIR sensor constantly monitors peoples' movements up to a distance of 4 meters and if after 1 or 4 minutes it does not detect movement it will switch off.

Thereafter, if the PIR sensor does detect movement it will automatically switch on at the original settings. This economy function optimises energy usage and minimises CO2 emissions even further than the 80% already indicated – making Titan the most efficient and eco-friendly heater in the world.

Carbon fibre heating

Instant heat with two heat settings - 1500W / 3000W. - the elements are easily replaceable & designed to last 10,000 hours.

Far Infrared Electric heaters offer more focused heat, heating people rather than the air and emit zero CO2 exhaust gases unlike gas patio heaters. Far Infrared carbon fibre heating is used worldwide in hospitals for many problems as it is proven to be the most natural, versatile, and healthy form of heat known to man. FIR heat helps maintain body vitality and increases metabolic function without side effects.
